# Salina Police Department

*To Protect and to Serve*

James Hill  
Chief Of Police  
Serving Since 1991

## Mission Statement

The Salina Police Department exists for the purpose of protecting and serving the people of Salina. Vital to this purpose are the values, which reflect what the department believes in as an organization. These beliefs are reflected in the department's recruiting and selection process, policies and procedures, training and development, and ultimately, in the actions of its officers in delivering services.

Values reflect what the department considers important and determine the way officers view not only their role, but also the people they serve. Moreover, our values serve as a linkage between the ongoing operations of the department and the community's ability not only to participate in, but also understand the reason for police department strategies.

Our operational philosophy is based on the following values, which we believe are conducive to good policing:

The Salina Police Department

- ◆ Places its highest value on human life
- ◆ Must preserve and advance the principles of democracy
- ◆ Believes that the effective delivery of police service is dependent on community involvement
- ◆ Believes that it must be accountable to the people it serves
- ◆ Is committed to professionalism in all aspects of its operation
- ◆ Strives to maintain the highest standards of integrity
- ◆ Values its members, caring men and women who comprise the department

# Department Command Staff

*Integrity and Ideals*

Deputy Chief of Operations  
Barry Plunkett  
Serving since 1974

Deputy Chief of Administration  
Mike Marshall  
Serving since 1979

Captain of Patrol  
Carson Mansfield  
Serving since 1985

# Department Staff

*Responsibility and Respect*

Drug Task Force Lieutenant  
Mike Sweeney  
Serving since 1983

Criminal Investigations Lieutenant  
Scott Siemsen  
Serving since 1985

Communications Lieutenant  
Wayne Pruitt  
Serving since 1984

Internal Affairs Lieutenant  
Bill Gerry  
Serving Since 1989

Training Lieutenant  
Sean Morton  
Serving since 1991

Records Bureau Supervisor  
Arlene Frederiksen  
Serving since 1984

# Department Watch Commanders

*Committed to Service*

Russ Lamer  
Traffic Lieutenant  
Serving since 1984

## 1st Watch

Gerald Shaft  
1st Watch Lieutenant  
Serving since 1986

Chris Trocheck  
2nd Watch Lieutenant  
Serving since 1990

## 2nd Watch

Al Salzman  
2nd Watch Lieutenant  
Serving since 1983

Jim Norton  
3rd Watch Lieutenant  
Serving since 1990

## 3rd Watch

Paul Forrester  
3rd Watch Lieutenant  
Serving since 1993

# Crime Definitions

Together Making a Difference

Crime Index Total is composed of selected offenses used to gauge fluctuations in the overall volume and rate of crime reported to law enforcement.

- ◆ **Aggravated Assault/Battery** is an unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. This also includes assault with disease (as in cases when the offender is aware that he/she is infected with deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.).
- ◆ **Auto Theft** is the theft of a motor vehicle. A "motor vehicle" is a self-propelled vehicle that runs on the surface of the land and not on rails, and which fits one of the following property descriptions: *Automobiles*- sedans, coupes, station wagons, convertibles, taxicabs, or other similar motor vehicles which serve the primary purposes of transporting people. *Buses*- motor vehicles which are specifically designed (but not necessarily used) to transport groups of people on a commercial basis. *Recreational Vehicles*- motor vehicles which are specifically designed (but not necessarily used) to transport people and also provide them temporary lodging for recreational purposes. *Trucks*- motor vehicles which are specifically designed (but necessarily used) to transport cargo. *Other Motor Vehicles*- any other motor vehicles, i.e., motorcycles, motor scooters, trail bikes, mopeds, snowmobiles, golf carts, whose primary purposes is to transport people.
- ◆ **Burglary** is the unlawful entry into a building or other structure with the intent to commit a felony or a theft.
- ◆ **Rape**, as defined, is the carnal knowledge of a person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her temporary or permanent mental or physical incapacity.
- ◆ **Larceny/Theft** is the unlawful taking, carrying, leading, or riding away of property from the possession, or constructive possession, of another. It includes crimes such as shoplifting, pocket picking, purse snatching, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no force, violence or fraud occurs.
- ◆ **Murder & Non-negligent Manslaughter** is defined as the willful (non-negligent) killing of one human being by another. The classification of this offense, as for all other Crime Index offenses, is based solely on police investigations as opposed to the determination of a court, medical examiner, coroner, jury or judicial body. Not included in the court for this offense classification are deaths caused by negligence, suicide or accident, justifiable homicides, and attempts to murder or assault to murder (which are scored as aggravated assaults).
- ◆ **Robbery** is the taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

**Rape**

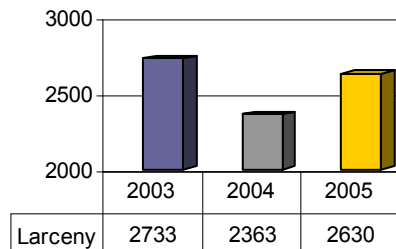

**Robbery**

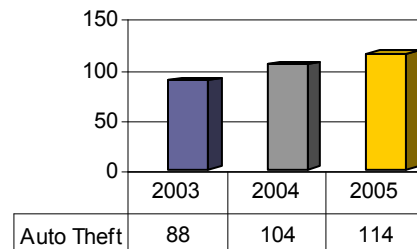

**Aggravated & Simple Assaults**

**Larceny**

**Auto Theft**

## Crime In Salina

The Salina Police Department collects incident information using a system called the National Incident-Based Reporting System, or NIBRS. NIBRS is an improvement on a system known as the Uniform Crime Reporting Program, or UCR. Since 1930, the F.B.I. has administered the UCR Program using statistics supplied by various states. At the present time the F.B.I. is encouraging states and local agencies to switch to NIBRS, which provides a more accurate picture of crime in any given community. Only 24 states, including Kansas, have been certified and, until more agencies successfully migrate to the NIBRS format, the F.B.I. will continue to report crime trends and data in the UCR format.

# Larceny Offenses

	2003	2004	2005
Theft of MV Parts & Accessories	309	271	225
Theft From A Building	46	20	15

15.9 days

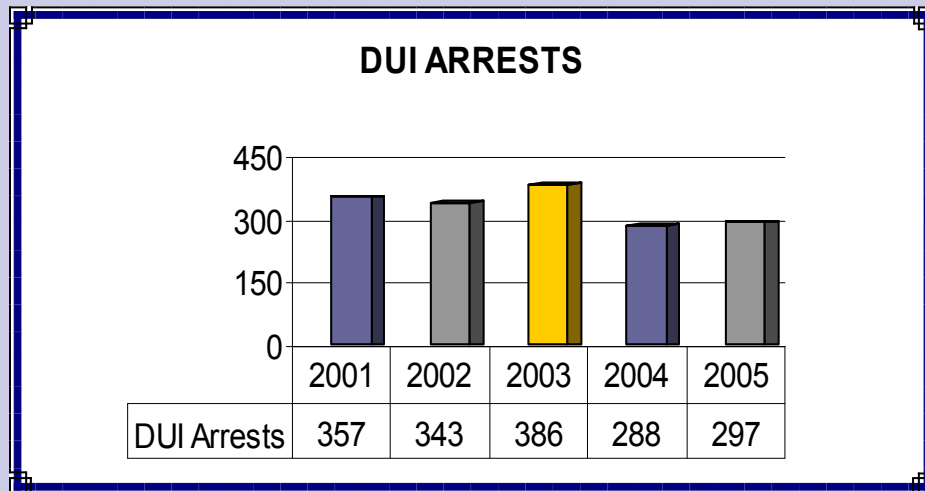

One  
Auto Theft Every  
3.2 days

One  
Aggravated Assault Every  
5.3 days

One  
Simple Assault Every  
9.2 hrs.

# Alcohol Related Crimes

Salina Downtown Inc. put together a task force to make recommendations to the City Commission concerning downtown bars. Police Chief Jim Hill provided the Board with 2005 statistics. During the first three quarters of 2005 the Salina Police department responded to 269 calls in the downtown area and made 128 arrests.

Hill says the majority of those arrested are extremely intoxicated and making more arrests will not solve the problem. He made suggestions ranging from not letting people into bars who have already been drinking to training bar staff how to deal with intoxicated people.

*Dedicated to Excellence*

# Technology in Law Enforcement

## The Total Station

Master Patrol Officer Miller learns new technology in measuring and surveying with the newly acquired Total Station equipment and crime scene software.

The Total Station is an optical instrument used in modern surveying. It is a combination of an electronic theodolite (transit), an electronic distance measuring device (EDM) and software running on an external computer.

The total station also includes a simple calculator to figure the locations of points sighted. The calculator can perform the trigonometric functions needed, starting with the angles and distance, to calculate the location of any point sighted.

Officers determine angles and distances from the instrument to points to be surveyed. The Total Station also includes a data recorder. The raw data (angles and distances) and/or the coordinates of points sighted are recorded, along with some additional information (usually codes to aid in relating the coordinates to the points surveyed). The data thus recorded can be directly downloaded to a computer and application software at a later time to generate a map of the surveyed area. The use of a data recorder further reduces the potential for error and eliminates the need for an officer to record the data in the field.

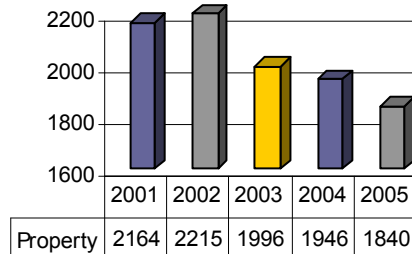

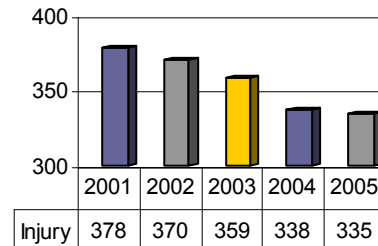

# Traffic Collision Summary

*Safety, Service and Security*

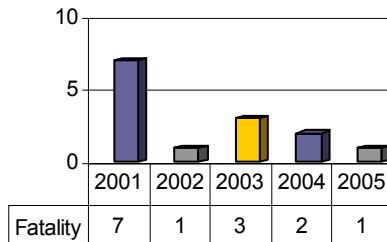

**Property**

**Injury**

**Fatality**

## The Top Five Traffic Violations that cause Traffic Collisions

1. Inattentive Driving (508)
2. Limits on Backing (372)
3. Fail to Stop or Yield (364)
4. Follow to Close (110)
5. Fail to Yield Left Turn (117)

Officer Greg Jones takes control of a non-injury intersection accident, November 9, 2005.

## TRAFFIC-Highlights

During 2005 the Police Department investigated 2176 motor vehicle crashes. Of that number, one was a fatality accident, 335 were crashes with injury, and 1840 were crashes without injury. The most dangerous intersection in Salina during 2005 was Crawford & Broadway. The department recorded 18 crashes there in 2005.

### Top 10 Crash Sites—2005

8 ea.	9th/Saturn, 9th/South, Ohio/Iron, & Roach/Crawford
9 ea.	Crawford/5th & Santa Fe/Pacific
13	Cloud/9th
15	9th/Magnolia
17	Crawford/Ohio
18	Crawford/Broadway

# Evidence Bureau

Today's law enforcement agencies have property rooms full of stolen or forfeited goods. The rightful owners are not easily identified, and once property is no longer needed as evidence, it must be disposed of properly. The service, started in 1999 by a former police detective, now has more than 500 law enforcement agencies nationwide signed on. Property Room harnesses the power of the Internet to quickly move items out of police property rooms, reduce personnel costs and generate revenue well beyond traditional police auction methods. Not to mention there is no cost to the participating police or sheriffs department.

Property Room uses proprietary methods to manage the processing and merchandising of property room items and their placement on the Internet. All items are tracked by case or control number, with secure, online reports available for auditing and reconciliation purposes. Property Room is responsible for all fulfillment and customer service functions, which relieves participating departments of burdensome management functions.

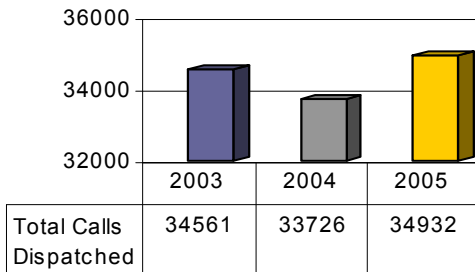

Property Room has warehouses in New York, California, and Washington in which property from all over the nation is distributed. Property Room first contacted our agency in 2005 to inform us of the benefits they could provide to us. After reviewing the advantages to the public being able to gain access to property online in the comfort of their home, it was decided that using this site would be an attribute for everyone. The site is easily accessible for anyone and can be located at [www.propertyroom.com](http://www.propertyroom.com).

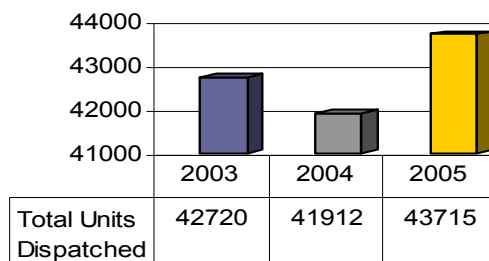

# Calls For Service

**Total Calls Dispatched**

**Total Units Dispatched**

*Concern for Safety*

One of the police department's highest operational priorities over the years has been to provide Salina's citizens and visitors the opportunity to safely travel our roadways. This goal requires that, working in concert with other city departments, we promote roadway safety through traffic law enforcement, education and engineering. The city investment in traffic safety is paying handsome dividends. A record low 42 alcohol related crashes (ARCs) were recorded in 2005. This all-time record low represents a 19% decrease from the 52 ARCs recorded in 2004, and an amazing decrease of 65% when compared to the record high 121 ARCs recorded in 1992. Also, a record low total of 335 injury producing accidents were recorded in 2005, which represents a 32% decrease in injury accidents when compared to 1992's record high of 492.

Officer Sarah Cox works an accident in front of Big Lots on South 9th Street.

# Internal Affairs

## 2005

During 2005 there were a total of ten formal complaints filed with and investigated by the Salina Police Department Internal Affairs Office. The following is an account of those cases.

COMPLAINT	EXONERATED	UNFOUNDED	NOT SUSTAINED	SUSTAINED	PENDING	TOTALS
Excessive Use of Force	1	1	0	0	0	2
Biased Based Traffic Stop and Search	1	0	0	0	0	1
Improper Investigation	0	0	0	3	0	3
Conduct Unbecoming	0	0	0	1	0	1
Rude Courtesy	0	1	0	2	0	3
Totals	2	2	0	6	0	10

*Integrity and Ideals*

Professionalism

Respect

Integrity

Dedication

Ethics

# SRT

The Special Response Team is made up of specially trained and equipped members whose mission is to support the Salina Police Department with any high-risk operation that requires special skills or equipment and goes beyond the capability of the standard patrol response.

The SRT consists of police officers that have undergone intensive, specialized training that includes rigorous qualifications. Members are highly qualified to respond to high-risk, dangerous situations that would necessitate a disciplined team effort utilizing SRT tactics, training and specialized equipment. The SRT is called upon at various times to serve in many high-risk arrest situations as well deal with armed and barricaded suspects.

Using highly sophisticated equipment ranging from fully automatic weapons to specialized communication devices, the SRT is ready and able to handle the potentially dangerous and most extreme law enforcement situations. SRT members are an exceptionally dedicated and professional group of police officers who have made a total commitment to protecting the citizens of Salina.

Examples of situations that by their potentially violent and/or specialized nature indicating the need for SRT mobilization:

- ◆ Armed suspect(s) with hostages.
- ◆ Barricaded gunman or suspected barricaded gunman.
- ◆ High-risk warrant service.
- ◆ Arrest of violent or potentially violent suspect(s).
- ◆ Sniper or suspected sniper.

# Global Flyer Event

*One Man One Plane One World*

Flying from horizon to horizon, Steve Fossett completed the first nonstop, solo, global flight around-the-world without refueling. The sometimes tense journey across three oceans and dozens of countries began in Salina, Kansas, on Monday evening, March 3rd . The 19,880 nautical-mile voyage took 67 hours and two minutes. It was financed by Fossett's long-time friend and investor, Richard Branson, who heads Virgin Atlantic Airways.

The Salina Police Department directed traffic as a cheering crowd gathered to usher the GlobalFlyer and it's 60-year-old pilot into the record books, something that has become almost routine for Fossett in recent years. The aviator now holds three record-breaking circumnavigations of the globe, the two others by balloon and sailboat.

Chief Hill and Officer McCary direct traffic for the Global Flyers return in March 2005.
